E-Newsletter for April, 2023

“It is spring again. The earth is like a child that knows poems by heart.”

- Rainer Maria Rike

Dear All,

Each sunrise brings a new day filled with new hopes for a new beginning. So, we have successfully completed another academic session (2022-23) and have begun our new session (2023-24) with renewed vigour, zeal, hope, and positivity. This is our 15th year and we are looking forward to bring in a lot of changes in the school, keeping in mind the best interest of the students and the staff. We have been following the directives laid down by NEP 2020, since the very inception. We are continuously integrating the policies of NEP and mapping them with our curriculum. We are also beginning with the IGCSE curriculum from July 2023.

April 22 is celebrated as Earth Day, an annual event where people take time out to demonstrate their support for protecting the planet and its environment. The theme for the 2023 Earth Day calls on humanity to build a healthier economy while also making sure we work towards a more equitable future for everyone. The school observed Earth Day and Secondary Achiever House presented a wonderful assembly on the topic. Through these assemblies, we aim to promote awareness among our students.

Since it's the beginning of the session, I would like reinforce among young learners the value and significance of discipline. Discipline is a way in which we align our body, mind and our soul to follow a proper order. A person who is disciplined performs everything in the right manner and is able to achieve great heights in life both personally and professionally. Thus, it is essential to practise discipline in every sphere of life. Discipline is a way to set limits for the children so that they know what is right and what is wrong. This improves the character of the students and they become strong as well as self-reliant. Discipline even develops the analytical skills of the students. So, when they grow up, they can exploit their skills to solve real-life challenges. Thus, I would request parents to cooperate with us and ensure that we can go ahead with session smoothly and effectively.

I would like to take this opportunity to wish all the best to my students, parents and staff for this new session.

**Thanks and regards,
John Andrew Bagul
Founding Principal**
