

27.01.2021

Dear Parents,

Greetings from South City International School!

As we are approaching the end of the academic year 2020-21, I am sure you will agree that it has been an unusual year with online classes substituting the physical classes.

You are aware that teachers have been coming to school to conduct virtual classes using school infrastructure ever since the lockdown ended. All precautionary measures , safety protocols and logistics - regular fumigation and sanitisation of school premises , checking of temperature at regular intervals , compulsory wearing of masks , hand sanitisers placed at vantage points for easy accessibility and maintaining of social distance - as per government's directives , are being strictly followed in school .

You are requested to fill up the Google form with your responses so that we are ready to welcome our students when State Government permits the entry of board batch students to the school premises, in order to prepare them for the practical papers for the forthcoming board examinations. The link for the same will be shared by the class teacher. On the basis of your decision, we shall prepare a schedule , which will be shared with you in due course .All forms to be submitted by 1<sup>st</sup> February 2021 ,time 3:00 pm.

Warm regards,

John Andrew Bagul

Principal.
